We Control Doors.

The Enterphone Axess is an incredibly economical telephone entry system for any building up to 1000 suites. As an Enterphone® 2000 panel, the enclosure is called the Centurion. For the additional benefits and features of the Enterphone 2000 system please refer to the separate Enterphone 2000 brochure.

The Enterphone Axess combines rugged design, heavy gauge steel construction and special epoxy coating to create a highly vandal resistant product. A fully-sealed, weather-resistant panel makes the Enterphone Axess an excellent choice for a wide variety of interior and exterior applications.

A strong, reliable and affordable entry system is a vital element of your residential or commercial building security. Enterphone Axess provides added security and communication along with reliability and flexibility -- all at a competitive price!
